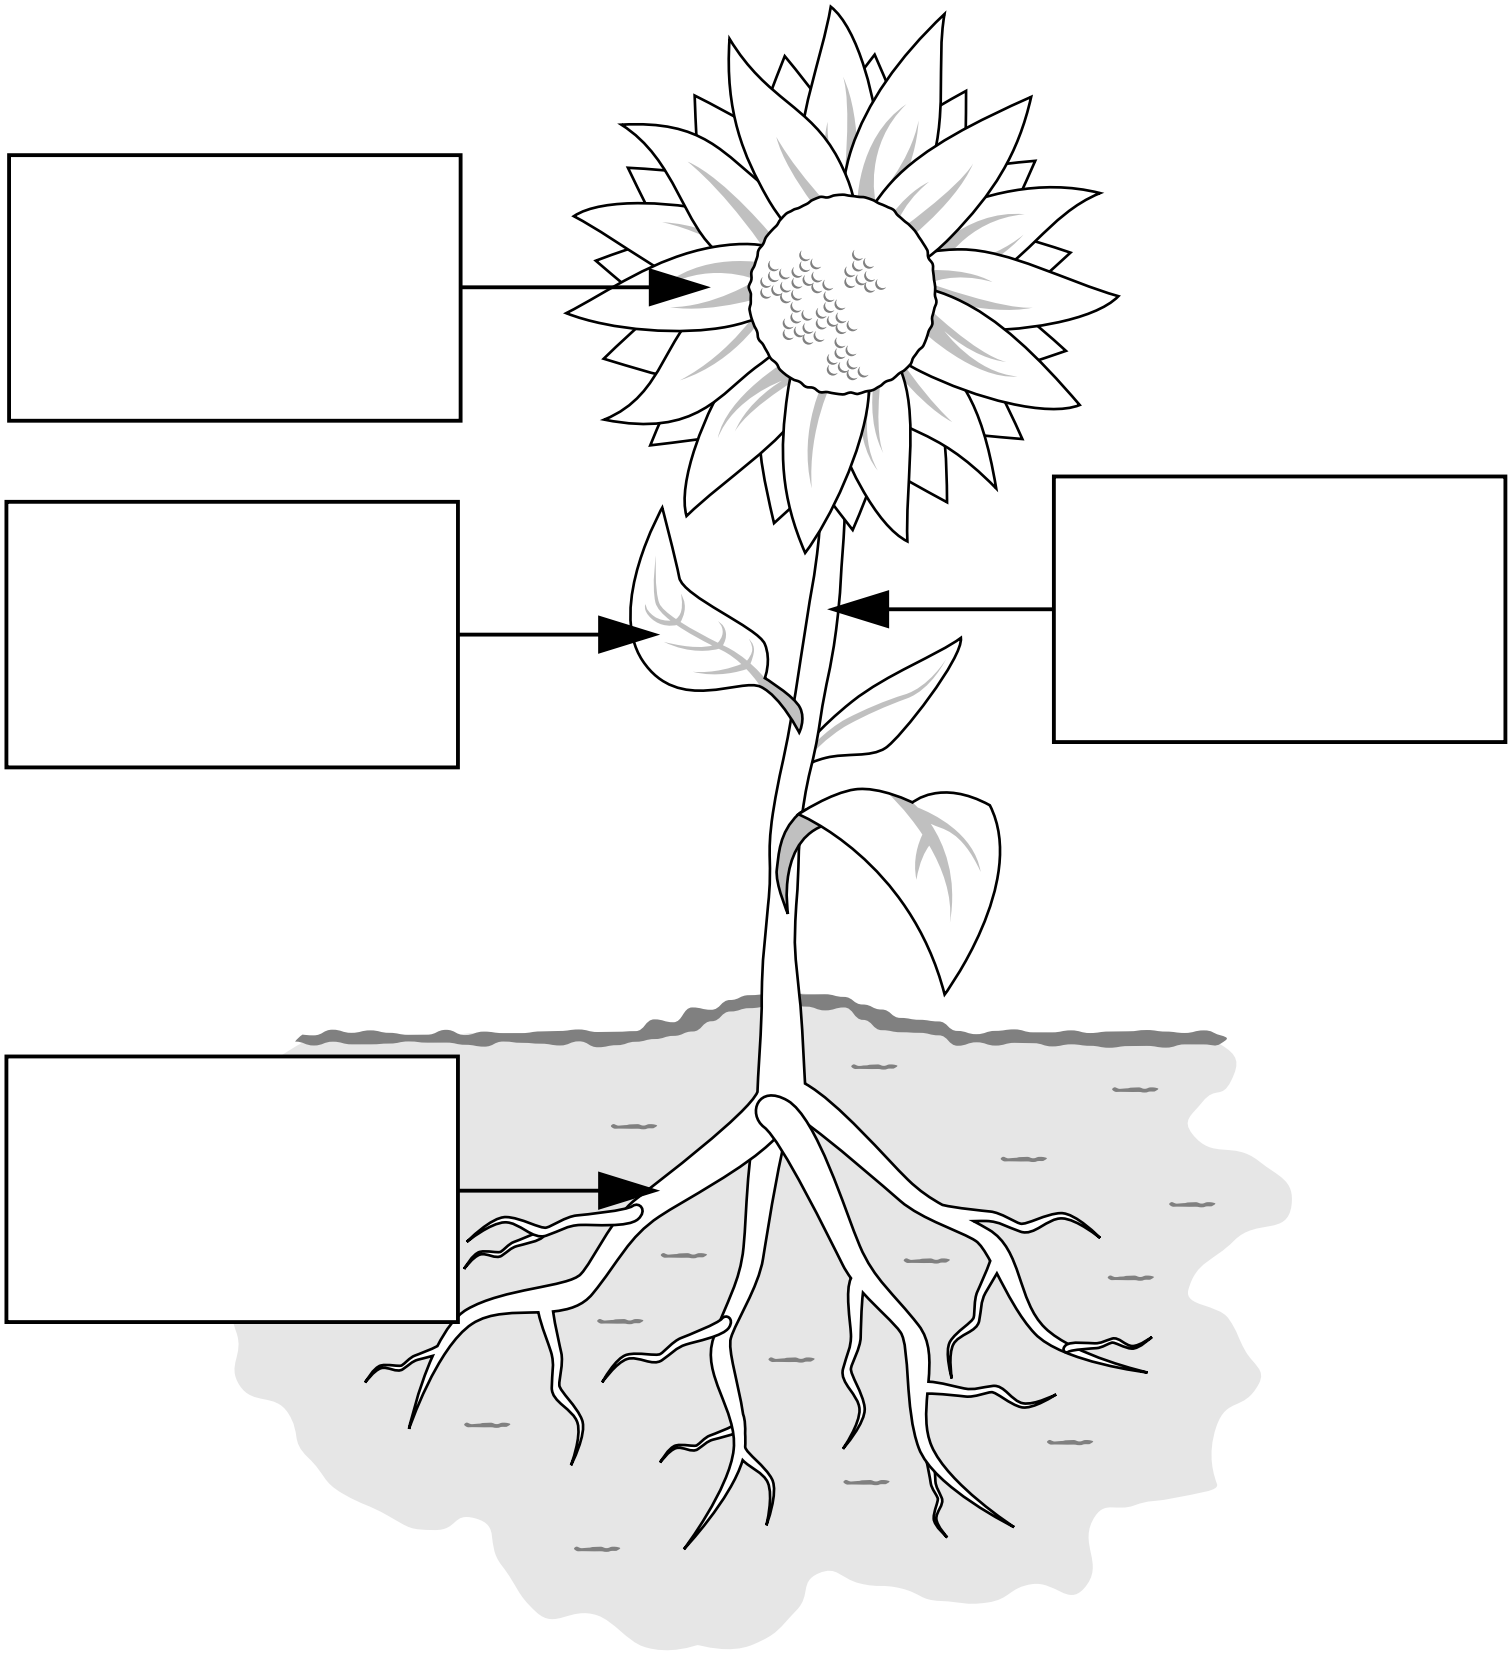
Name: _____

Parts of a Plant

Cut out the plant part definitions and glue them in the correct boxes.



leaves

Leaves make food for the plant. They take in carbon dioxide and release oxygen into the air.

flower

The flower makes seeds for the plant.

stem

The stem supports the plant. It contains thin tubes for carrying food, minerals, and water through the plant.

roots

The roots soak up water and minerals. They also store food for the plant.
