Name: _____

Making a Line Plot

Jeremy's grandfather gave him twelve old wheat pennies to add to his coin collection. The dates on the pennies are listed in the box below.

1944, 1943, 1944, 1945
1944, 1945, 1943, 1944
1943, 1944, 1944, 1941

Use the data on the above to make a line plot. Be sure you write numbers on the axis, label the axis, write a title, and use Xs to represent pennies.

title:_____

axis label:_____

1. How many pennies were minted in 1943?   _____

2. How many pennies were minted after 1943?   _____

3. How many pennies were minted before 1943?   _____

4. What is the date on the oldest penny?   _____

ANSWER KEY

Making a Line Plot

Jeremy's grandfather gave him twelve old wheat pennies to add to his coin collection. The dates on the pennies are listed in the box below.

1944, 1943, 1944, 1945
1944, 1945, 1943, 1944
1943, 1944, 1944, 1941

Use the data on the above to make a line plot. Be sure you write numbers on the axis, label the axis, write a title, and use Xs to represent pennies.

title: Dates on Wheat Pennies from Jeremy's Grandfather

```
                                              X
                                              X
                                              X
                              X               X
                              X               X
             X                X               X               X X
            1941    1942     1943     1944     1945
```

axis label: Date

1. How many pennies were minted in 1943?   **3 pennies**

2. How many pennies were minted after 1943?   **8 pennies**

3. How many pennies were minted before 1943?   **1 penny**

4. What is the date on the oldest penny?   **1941**
