**Flower Sum Game**

**Skills Overview**
- Students will practice finding pairs of numbers that add up to 15.

**Number of Players**
- 2 or 3

**Material**
- Game board
- Crayons (Different color for each player)

**Management suggestions**
- You may want to limit the amount of time a player is given to find a pair of numbers. (For example, if a player can’t find a matching pair in 20 seconds, they lose their turn.)

**Differentiation**
- The last page of this file has a blank template so teachers or students can create their own custom version of the game.

---

**Example:**
- In the example, two players have colored adjacent shapes that add up to 15. Player 1 has colored shapes with the numbers 7 and 8, and Player 2 has colored shapes with the numbers 10 and 5.
