Basic Addition Scoot

Objective: This game will give students an opportunity to review basic addition.

Materials: Grid Worksheet (one per student)
Scoot Question Cards (one per desk)

Preparation: Place a Scoot Question Card on each desk. Attach them to the desk with tape.

How to Play: Students will move from desk to desk around the classroom. At each desk, students will read the addition card and write the answer on the grid worksheet. When the teacher says “SCOOT,” they move to the next desk. Students visit each desk in the classroom and answer all of the question cards.

Management Suggestions:

Practice moving from desk to desk before playing the actual game. Have them “Scoot” four or five times before you begin the actual game.

Some teachers like to spread out the desks a bit so students do not look at the cards to the right or left of them before they arrive at the desks.

Watch your timing. If you tell the students to scoot too soon, they may not be able to finish writing answers to their question cards. If you wait too long before telling students to scoot, they may get bored and restless.

Use only as many question cards as you need. This version of the game has 30 cards. However, if you have only 18 desks in your classroom, only use 18 cards and 18 squares on the grid.
(This file has 20, 25, and 30 square grids. Use whichever one best meets your needs.)
Find the missing addend. Write the number sentence on your answer page.

4 + ___ = 7

Write the number sentence for the picture below.

Ella reads 2 books. Then she reads 3 more. How many books did she read in all?
Adam eats 1 grape. Then he eats 3 more. How many grapes did he eat in all?

Write the number sentence for the picture below.

Find the missing addend. Write the number sentence on your answer page.

What is the sum of 6 and 2?
What is the sum of 1 and 1?

Find the missing addend. Write the number sentence on your answer page.

3 + __ = 6

Sara has 2 pencils. She finds 1 more. How many pencils does she have now?
What is the sum of 6 and 3?

Max decorates 4 cookies. He decorates 2 more. How many cookies did Max decorate?

Write a number sentence for the picture below.

Find the missing addend. Write the number sentence on your answer page.

Red counters + White counters = Total counters

6 + ___ = 10
Addition Scoot 17

Write the number sentence for the picture below.

\[ \heartsuit + \heartsuit = \heartsuit + \heartsuit \]

Addition Scoot 18

What is the sum of 4 and 4?

Addition Scoot 19

Find the missing addend. Write the number sentence on your answer page.

\[ \_ + 1 = 4 \]

Addition Scoot 20

Leo has 5 toy cars. His brother gives him 2 more. How many cars does he have in all?
Addition Scoot 21

Write the number sentence for the picture below.

Addition Scoot 22

Find the missing addend. Write the number sentence on your answer page.

[4 simple stars] + 2 = 9

Addition Scoot 23

Jill plays with 2 kittens. 2 more kittens come over. How many kittens is Jill playing with?

Addition Scoot 24

What is the sum of 0 and 3?
Find the missing addend. Write the number sentence on your answer page.

\[6 + \_ = 8\]

Write a number sentence for the picture below.

Write a number sentence for the picture below.

I buy 1 green apple and 4 red apples. How many apples did I buy in all?
Find the missing addend. Write the number sentence on your answer page.

+ 2 = 10

Write the number sentence for the picture below.
