Basic Addition Scoot

Objective: This game will give students an opportunity to review basic addition.

Materials: Grid Worksheet (one per student)
Scoot Question Cards (one per desk)

Preparation: Place a Scoot Question Card on each desk. Attach them to the desk with tape.

How to Play: Students will move from desk to desk around the classroom.
At each desk, students will read the addition card and write the answer on the grid worksheet. When the teacher says “SCOOT,” they move to the next desk. Students visit each desk in the classroom and answer all of the question cards.

Management Suggestions:

Practice moving from desk to desk before playing the actual game. Have them “Scoot” four or five times before you begin the actual game.

Some teachers like to spread out the desks a bit so students do not look at the cards to the right or left of them before they arrive at the desks.

Watch your timing. If you tell the students to scoot too soon, they may not be able to finish writing answers to their question cards. If you wait too long before telling students to scoot, they may get bored and restless.

Use only as many question cards as you need. This version of the game has 30 cards. However, if you have only 18 desks in your classroom, only use 18 cards and 18 squares on the grid.
(This file has 20, 25, and 30 square grids. Use whichever one best meets your needs.)

What is the sum of 7 and 6?

Addition Scoot

Write the number sentence for the picture below.

Addition Scoot

Mia picked 3 apples. Then she picked 1 more. How many did she pick in all?

Find the missing addend. Write the number sentence on your answer page.

1 + ___ = 6
Addition Scoot 13

Write the number sentence for the picture below.

Addition Scoot 14

Emma has 4 teddy bears. Her mom gives her 3 more. How many bears does she have?

Write a number sentence for the picture below.

Find the missing addend. Write the number sentence on your answer page.
What is the sum of 5 and 9?

Find the missing addend.
Write the number sentence on your answer page.

Noah has 10 toy trucks. Ava gives him 3 more. How many trucks does he have in all?

\[ \text{___} + 0 = 8 \]
Write the number sentence for the picture below.

Liz makes 10 cookies. Dan makes 6 cookies. They put all the cookies in a jar. How many cookies are in the jar?

Write a number sentence for the picture below.

Find the missing addend. Write the number sentence on your answer page.

9 + __ = 13
Write the number sentence for the picture below.

\[ \begin{align*}
\triangle \quad \triangle \\
\triangle \quad \triangle
\end{align*} + \begin{align*}
\triangle \quad \triangle \\
\triangle \quad \triangle \\
\triangle \quad \triangle
\end{align*} \]

Jay sees 2 cats. Then he sees 5 more. How many cats did he see?

Find the missing addend. Write the number sentence on your answer page.

What is the sum of 6 and 4?

\[ \underline{\text{___}} + 4 = 6 \]
Write the number sentence for the picture below.

Sophia reads 10 books. Then she reads 3 more. How many books did she read in all?
