

# Birds Scavenger Hunt Activity

## Materials:

18 bird fact cards (pages 2-6),  
Bird questions worksheet (pages 7-8),  
scissors and scotch tape

## Preparation

Print the fact cards and cut them apart.

Make copies of the bird questions worksheet (2-sided). Each student will need his or her own copy.

Hide all 18 bird fact cards around your classroom where students will be able to find them. You can put them on the back of your classroom door, on chairs, on the computer keyboard, on the sides of student desks, or wherever you like.

## Activity

Don't be afraid to hide the facts in tough places. Kids think it's more fun when they have to search around a little.

## Examples of good hiding spots might include:

- sticking out of a book, like a bookmark
- the back of the classroom door
- laying flat on the bookshelf
- on the back of the teacher's chair
- on the side of your computer monitor

*Have a plan for students who finish early. You may want to have an assignment for them to complete when they're done, or you may have them help other students find fact cards.*

## Scavenger Hunt

# Birds

Fact Card

1

The ostrich is the largest and heaviest species of bird living in the world today. An ostrich can't fly, but it can outrun most of its enemies. It also has powerful legs. An ostrich can injure or kill a lion by kicking it.

## Scavenger Hunt

# Birds

Fact Card

2

Hummingbirds are the smallest birds in the world. Unlike most birds, they can hover in one place and fly backwards.

The African gray parrot is thought to be the smartest of all birds. It is also the best talker. It can easily learn to say 900 words or more.

Penguins can't fly, but they are great swimmers. They use their flippers for steering themselves underwater. There are no penguins living near the North Pole. They live in South America and Antarctica.

### Scavenger Hunt

# Birds

Fact Card

# 5

Groups of birds have unusual names. A gaggle of geese, a rookery of penguins, a pod of pelicans, a murder of crows, and a brood of chickens all refer to bird groups.

### Scavenger Hunt

The peregrine falcon is the fastest flying bird. It can zoom across the open sky at 200 miles (322 kilometers) per hour!

In the wild, an ostrich will eat grasses, roots, seeds, and leaves. It also eats insects, lizards, and even small stones. An ostrich at the London Zoo in England once swallowed an alarm clock, a pencil, pennies, and a 3-foot (1 meter) long piece of rope.

## Scavenger Hunt

# Birds

Fact Card

9

The most common bird in the world is the chicken. There are more chickens on Earth than people.

## Scavenger Hunt

# Birds

Fact Card

10

Bald eagles are known for their excellent eyesight. While soaring in the sky, they can see a fish swimming in the water 100 feet (31 meters) below. An eagle's eyesight is four times as sharp as a person with perfect vision.
