9. What did Stone Fox do when he found Willy in the barn with his Samoyeds?

Stone Fox slapped him across the face.

10. How did his age and size help Willy in the sled race?

He was smaller and lighter. This meant he could be pulled easier and make tighter turns. He could also take a shortcut across a lake that others could not.

11. How can you tell this story took place a long time ago?

There is lots of evidence that this story took place long ago. The characters drove around in wagons pulled by horses. There was no electricity or electrical appliances mentioned in the book. Willy cooks on a wood burning stove. He uses fire to heat the house. He goes to a schoolhouse (which implies a one room schoolhouse). The banker gives him ten dollar gold coins.

12. Is Stone Fox a caring person? Explain your answer.

Yes. Two things suggest that he is a caring person. (Accept either answer)

1. He uses his prize money from the races to buy back farms for Indian people.
2. When Searchlight dies, he stops his sled. Then he stops the other racers. Then he lets Willy cross the finish line while carrying Searchlight's body.
