

What am I?

Monday's
Clue

Many people like to eat me. I give you protein which helps you stay well and grow.

What am I?

Tuesday's
Clue

I am a legume. That means I am a relative of peas and beans. All of us legumes have pods.

Wh

I grow on a plant. Yellow flowers grow on the plant. After awhile, parts of the yellow flowers drop to the ground and grow down into the soil. Those flower parts in the soil grow to become me!

C-4

Thursday's
Clue

Do you have any nicknames?

I do. I am sometimes called a *groundnut*, a *goober*, or a *goober-pea*.

C-4

What am I?

Friday's
Clue

People use me mostly for food. They eat me like a nut and I am often mixed with almonds, cashews, filberts, and Brazil nuts. These true nuts grow on trees, not in the ground like I do.

C-4

What am I?

Bonus
Clue

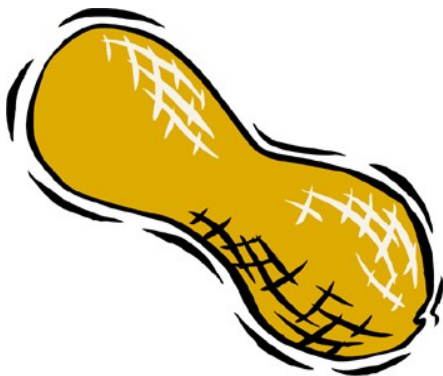

People often make me into a spread. They put me on bread with jelly – Mmm, Mmm, delicious!
