

## What am I?

Monday's  
Clue

An English scientist, Robert Hooke, studied me, drew pictures of me, and named me, way back in 1665.

## What am I?

Tuesday's  
Clue

I am inside of all living things. Sometimes just one of me is a whole living thing.

Millions of types of me exist. I come in many different shapes and sizes. I am usually so small that you need a microscope to see me.

D-2

Even though I am not always exactly the same, I always have certain parts. I have a membrane. It is a sort of skin on the outside of me that protects me. I have a cytoskeleton that helps me to keep my shape. I have genetic material. The job of my genetic material is to pass on traits or characteristics to future generations. I have organelles. They carry out various jobs for me.

What am I?

Friday's  
Clue

I can take in nutrients (stuff that nourishes or feeds), change nutrients to energy, and reproduce (make more of me). I can do many other things too, depending on what type I am.

What am I?

Bonus  
Clue

Can you read big numbers? About 100,000,000,000,000 (one hundred trillion) of me are inside of you!
