ANSWER KEY

Task Cards: Multiplying Decimals by 10, 100, and 1,000

1. 3,600
2. 100
3. 27.3
4. 72.1
5. 2
9. 4
10. 10
11. 3.26
12. 380
13. 8,980
14. 10
15. 78.6
16. 9,820
17. 58
18. 100
19. 7
20. 7
24. 8
25.
27. 8.1
28. 5,900
29. 986
30. 10

Task Cards: Multiplying Decimals by 10, 100, and 1,000

This file contains 30 task cards.

There are countless ways to use task cards in your classroom.
Here are a few ideas:

1. Math Learning Center
Place all of the cards on a table in the classroom. Groups of 3 to 5 students can visit the table and solve the problems. The students can complete them in any order they'd like. Students can work on as many or as few problems as you choose.

2. Dry-Erase
Laminate the task cards and then invite students to write on the cards with a dry-erase marker as they solve the problems.

3. Scavenger Hunt
Place the task cards around the room. (Examples: on the classroom door, attached to a student's desk, hanging from the classroom bookshelf) Students search for the cards and solve the problems.

5. Morning Challenge
Place all of the task cards in a basket. When students enter the classroom in the morning, they choose one card and solve the problem.

6. Interactive White Board Lessons
If you have a document camera attached to an interactive white board, you can display task cards for students to solve.

7. Extra Help
Have a parent, friend, or volunteer sit with individual students who need extra help. They can practice by solving the problems on the task cards together.
