1. You have 7 objects.
   Divide them into groups of 3.

   How many groups of 3 do you have? __________

   How many objects are left over that do not fit into a group? __________

   Draw a picture of your groups:

   Division problem: ________________________________

2. You have 10 objects.
   Divide them into groups of 10.

   Division problem: ________________________________

3. You have 13 objects.
   Divide them into groups of 6.

   How many groups of 6 do you have? __________

   How many objects are left over that do not fit into a group? __________

   Draw a picture of your groups:

   Division problem: ________________________________
4. You have 16 objects. Divide them into groups of 6.

How many groups of 6 do you have? ________

How many objects are left over that do not fit into a group? ________

Draw a picture of your groups:

Division problem: __________________________

5. You have 22 objects. Divide them into groups of 11.

Division problem: __________________________

6. You have 19 objects. Divide them into groups of 6.

How many groups of 6 do you have? ________

How many objects are left over that do not fit into a group? ________

Draw a picture of your groups:

Division problem: __________________________
1. You have 7 objects.
   Divide them into groups of 3.

   How many groups of 3 do you have? _____ 2 _____
   How many objects are left over that do not fit into a group? _____ 1 _____

   Draw a picture of your groups:
   □ □ □ □ □ □ □

   Division problem: 7 ÷ 3 = 2r1

2. You have 10 objects.
   Divide them into groups of 4.

   Division problem: 10 ÷ 4 = 2r2

3. You have 13 objects.
   Divide them into groups of 6.

   How many groups of 6 do you have? _____ 2 _____
   How many objects are left over that do not fit into a group? _____ 1 _____

   Draw a picture of your groups:
   □ □ □ □ □ □ □ □ □ □ □ □ □ □

   Division problem: 13 ÷ 6 = 2r1
4. You have 16 objects. Divide them into groups of 6.

How many groups of 6 do you have? 2

How many objects are left over that do not fit into a group? 4

Draw a picture of your groups:

Division problem: \(16 \div 6 = 2r4\)

5. You have 22 objects. Divide them into groups of 11.

Division problem: \(22 \div 11 = 2\)

6. You have 19 objects. Divide them into groups of 6.

How many groups of 6 do you have? 3

How many objects are left over that do not fit into a group? 1

Draw a picture of your groups:

Division problem: \(19 \div 6 = 3r1\)
