Materials:
• Scissors
• Brass paper fastener
• Cipher wheel (pages 2 and 3 of this worksheet)
• Hudson Cipher Code Fact Cards (pages 4 through 8 of this file)

Assembling the Cipher Wheel
Step 1: Print the cipher wheels on thick card stock.
Step 2: Carefully cut out the inner and outer wheel.
Step 3: Attach the inner wheel to the outer wheel, using a brass paper fastener.

Suggestions for Teachers
In order for the wheel to work correctly, the brass paper fastener must be pushed through the exact center of the wheel. Your students may need help with this step.

Have students save their cipher wheel for future activities. We have cipher code fact cards covering many topics on SuperTeacherWorksheets.com.

The entire activity does not need to be completed in one day. You may want to have students work on this activity for a short period of time each day until they’ve completed all of the fact cards.

Henry Hudson Fact #4

Use your Cipher Wheel to decode a fact about Henry Hudson. Use 1 = W as the reference point on your wheel.

Use your Cipher Wheel to decode a fact about Henry Hudson. Use 1 = W as the reference point on your wheel.
Henry Hudson Fact #1
Henry Hudson was an English explorer. His goal was to find an ice-free passage to Asia, through the northern part of America.

Henry Hudson Fact #2
Henry Hudson sailed four times in search of his passage to Asia. He never found a route to Asia, but he did discover many new lands and waterways.

Henry Hudson Fact #3
Henry Hudson explored the Hudson River in New York, Hudson Bay in Canada, and the Arctic Ocean.

Henry Hudson Fact #4
On his fourth voyage, Hudson and his crew were in the Hudson Bay. His crew staged a mutiny. They left Hudson and a few of his loyal crew members stranded on a boat. The rest of the crew sailed back to Europe. Hudson was never see again.
