

Name: _____

Financial Decisions

Read each scenario about financial decisions. Identify if the decision involves *income*, *spending*, *savings*, *credit*, or *charitable giving*.

Write the type of decision on the line.

1. Grayson spent \$30,000—that he didn't have—on a new roof when his old roof started leaking. _____
2. Nariya gave her granddaughter \$1 for every jump she completed in the Jump-A-Thon for her school's fundraiser for a new playground. _____
3. Last week, Jarius designed a website for a company and was paid \$2,500. _____
4. Quinn bought a new jacket using his debit card because his old jacket was too small. _____
5. After his paycheck is deposited into his checking account each week, Rodrique transfers 20% into a different account so he doesn't spend it. _____
6. Cade was \$350 short on his rent, so he put it on his card. _____
7. After budgeting and putting only the items on her list into her cart, Dalila bought groceries for the week. _____
8. Jia works in a flower shop. Yesterday, she made four small flower arrangements and made \$200. _____
9. For five months, Omar set \$100 aside for his upcoming trip. _____
10. Mrs. Noe gave \$50 to a group of volunteers because they were cleaning up the neighborhood. _____
