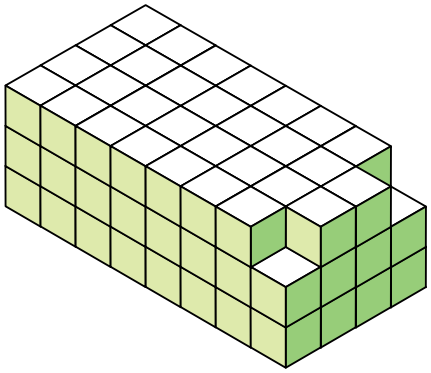
1. Fractional Volume Cubes

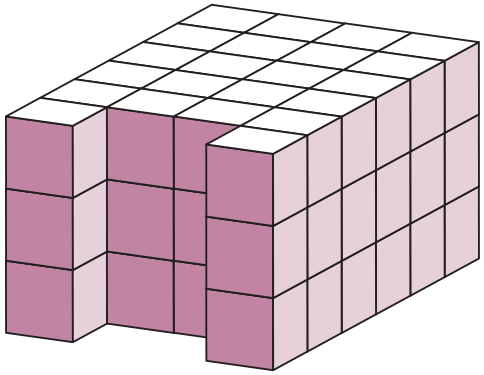
How many whole and $\frac{1}{2}$ cubic units fit in the shape?



Remember to calculate how many fractional cubic units fit inside a whole cubic unit.

2. Fractional Volume Cubes

How many whole and $\frac{1}{4}$ cubic units fit in the shape?



Remember to calculate how many fractional cubic units fit inside a whole cubic unit.

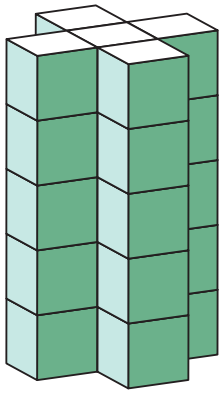
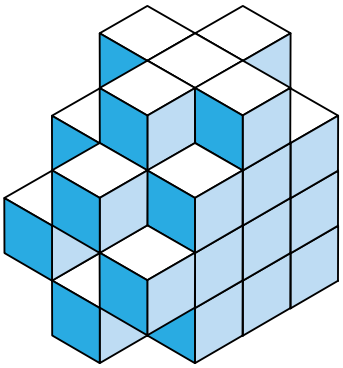
How many whole and $\frac{1}{5}$ cubic units fit in the shape?



Remember to calculate how many fractional cubic units fit inside a whole cubic unit.

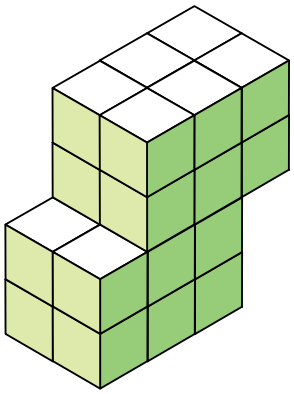
How many whole and $\frac{1}{3}$ cubic units fit in the shape?



Remember to calculate how many fractional cubic units fit inside a whole cubic unit.

5. Fractional Volume Cubes

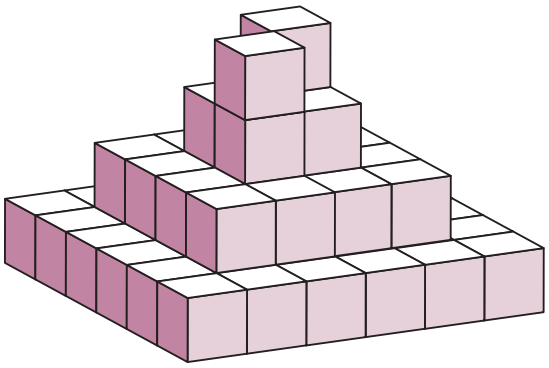
How many whole and $\frac{1}{7}$ cubic units fit in the shape?



Remember to calculate how many fractional cubic units fit inside a whole cubic unit.

6. Fractional Volume Cubes

How many whole and $\frac{1}{8}$ cubic units fit in the shape?



Remember to calculate how many fractional cubic units fit inside a whole cubic unit.

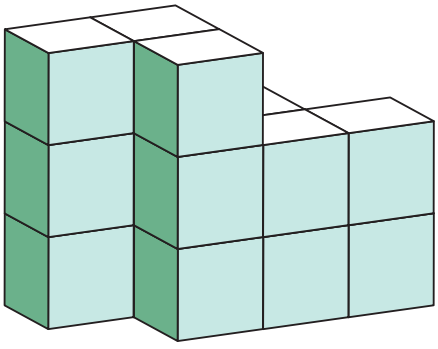
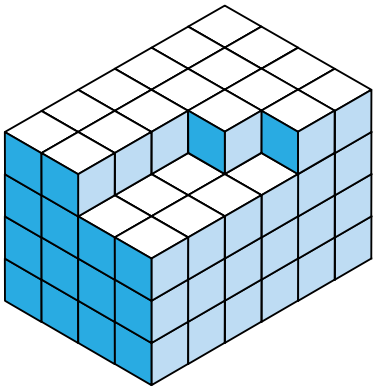
How many whole and $\frac{1}{2}$ cubic units fit in the shape?



Remember to calculate how many fractional cubic units fit inside a whole cubic unit.

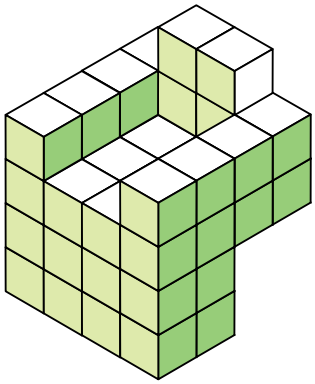
How many whole and $\frac{1}{4}$ cubic units fit in the shape?



Remember to calculate how many fractional cubic units fit inside a whole cubic unit.

9. Fractional Volume Cubes

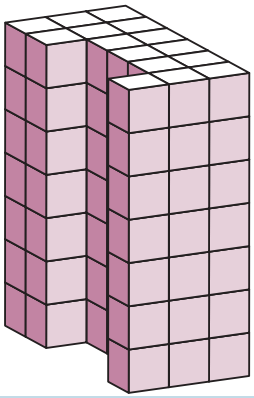
How many whole and $\frac{1}{2}$ cubic units fit in the shape?



Remember to calculate how many fractional cubic units fit inside a whole cubic unit.

10. Fractional Volume Cubes

How many whole and $\frac{1}{5}$ cubic units fit in the shape?



Remember to calculate how many fractional cubic units fit inside a whole cubic unit.
