

Line Plot Matching Game

- range of 16
- spread out (skewed) left
- no gaps
- greatest value is 18

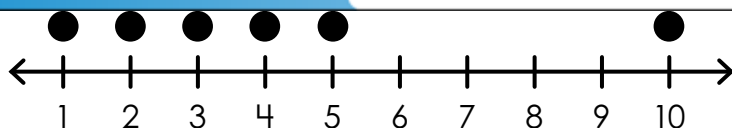

Instructions

- Separate the cards into two groups, line plots and descriptions.
- Keep the groups separate and place all the cards face down.
- Turn over one card from each group to find a line plot and a description.
- If you find a match, ask a friend to verify, then keep the cards.
If they are not a match, flip them back over. It is the next player's turn.

- 10 is an outlier

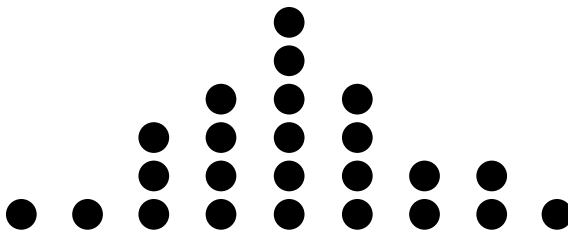

- two clusters
- one gap
- greatest value is 10
- center is around 6-7

Line Plot Matching Game

- multiple peaks
- multiple clusters
- least value is 1
- gaps at 4 and 8

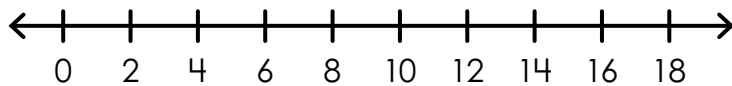

- roughly symmetric
- peak is at 10
- center is at 10

- greatest value is 18

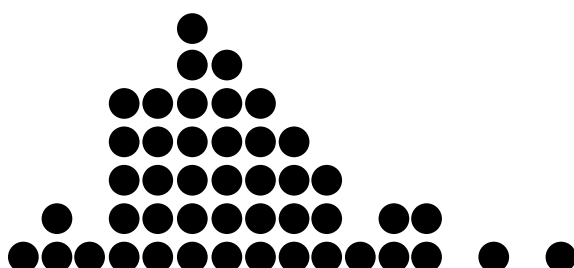

- range of 18
- 0 is an outlier
- grouped from 10–14
- peak is at 12

Line Plot Matching Game

- two clusters
- greatest peak is at 12
- gap from 5–9
- range of 18

- multiple gaps
- spread out (skewed) right
- peak is at 7
- range of 16
