Multiplication Puzzles

There are countless ways to use puzzle cards.
Here are a few ideas:

Puzzle Match

Place the puzzle pieces on the table or floor.
Have small groups match up each multiplication fact with the correct answer.

Find Your Partner

Give each student one puzzle piece.
Half of your students will have the multiplication facts and the other half will have the answers.
Have them find their "partner" with the matching piece.

Find the Incorrect Match

Attach three problems and answers to a sheet of construction paper. Two matches should be correct. One should be incorrect. Laminate. Have students identify the incorrect match.

Race to Match

Give two (or more) students a set of multiplication fact and answer cards. Have them race to see who can correctly match all of the cards first.
