The secret number does not have two digits.

To find the digit in the ones place, subtract 14 from 18.

If you write the secret number as a Roman Numeral it looks like this:

IV

The secret number is not an odd number.
How many sides does a trapezoid have?

That's the secret number.

The secret number is...

4
The secret number does not have two digits.

To find the digit in the ones place, subtract 14 from 18.

If you write the secret number as a Roman Numeral it looks like this: IV.

The secret number is not an odd number.

How many sides does a trapezoid have? That’s the secret number.

Do you know the secret number?
