## Graphing Ratio Tables

Use your knowledge of equivalent ratios to fill in the missing values in each table. Then plot the points on the graph to represent the data. Connect the points with a dotted line.

1.

| adults | children |
|--------|----------|
| 2      | 16       |
| 4      |          |
| 6      | 48       |
| 8      |          |
| 10     | 80       |

If there are 56 children, how many adults are there?
