Name: _____

Mall of America

Do you like shopping? Theme parks? Aquariums? You should visit Bloomington, Minnesota. The Mall of America has all three.

The Mall of America opened in 1992. It's the largest mall in the Americas. It has 2,870,000 square feet (267,000 square meters) of shopping space. The space is spread on up to four floors in some spots. It's also split between about 520 stores. Add in places to eat, movie theaters, and walking space, and the mall is about 5,600,000 square feet (520,000 square meters). That's not even counting the indoor theme park! The theme park adds another 300,000 square feet (28,000 square meters).

The Mall of America has expanded a few times since it opened. It's still going! In 2022, the city approved plans for an indoor water park. That'll add even more space.
