Dave’s mom made bean soup. She gave him three black beans.

First, Dave put a napkin in the jar. Next, he put some water on the napkin. Then, he put the beans on the napkin. Last, he put the lid on the jar.

Dave set the jar near a window. The sun warmed the air in the jar. The air warmed the beans. In two days, Dave saw tiny white shoots.

“The beans sprouted,” he said.

“The shoots will be the beans’ roots,” said Dave’s mom. The shoots grew long and green.

“I gave the plants what they need,” said Dave.
