Mount Everest is the tallest mountain on Earth. Its peak is located on the border between Nepal and Tibet in China. It is part of the great Himalayan Mountain range.

For many years, climbers tried and failed to reach the summit of Mount Everest. In 1953, the British put everything they had into giving it one more try. They hoped that their climbers would reach the top in time for the coronation of Queen Elizabeth.

Ten different climbers from all over the world were chosen to make the trek. In April and May, supplies were relayed up the mountain, and camps were set up every 1,000 to 2,000 feet.

When they returned home, journalists kept asking the two men who reached the summit first. Each time they were asked, the response was the same: “We reached it together, as a team.”
