More Than Just a Snack Food

By Sandie Lee

It’s been around for over 5,000 years. It was an important staple to the Aztec Indians, and it even helped in the inventing of the first microwave oven. Can you guess what it is? That’s right, it’s popcorn.

The oldest corn ever discovered was found in a New Mexico rock formation called “the Bat Cave.” These ears of corn, ranging from smaller than a penny to about 4 inches (10cm) long, are thought to be approximately 5,600 years old. Kernels of corn have also been found in tombs in Peru and some still pop after 1,000 years.

Popcorn was known as *momchitl* to the 16th century Aztec Indians, and played an important role in their lives. They used it not only as a food source, but also in their ceremonies. Garlands and headdresses were made from thick rows of popcorn and used in traditional dances. Popcorn was also thought to bring peace and goodwill. Perhaps that is why statues of one of their most important gods, Tlaloc (*Tlahloc*), their ancient god of rain, were also adorned with popcorn necklaces.

One account tells of the Aztec people scattering *momchitl* before the fishermen went out to sea. The popped corn represented hailstones and
was given to the god of water, in hopes of a safe journey for them.

Popcorn poppers have changed drastically over the years. Some ancient poppers were made out of soapstone or clay. This covered bowl was hung from a tripod-like holder and placed directly over the fire. Another method of popping corn is from the Winnabago Indians. They just stabbed a pointy stick through the entire cob, then held it close to the fire. When finished, it was eaten like corn-on-the-cob.

This covered bowl was hung from a tripod-like holder and placed directly over the fire. Another method of popping corn is from the Winnabago Indians. They just stabbed a pointy stick through the entire cob, then held it close to the fire. When finished, it was eaten like corn-on-the-cob.

When he was working with the magnetron, he realized the candy bar in his pocket had melted. So being the electronics whiz that he was, Percy Spencer had an idea and immediately sent for some popcorn. This time he placed the popcorn kernels near the tube and soon history was made. The kernels popped, and he went on to create the first microwave oven.

Who knew popcorn had such a history? From caves to ceremonies to microwaves, this fun food has seen it all. Perhaps that’s why it has stood the test of time and still remains a favorite today.
1. When did people first start popping popcorn?
   a. shortly after the microwave was invented  
   b. in 1946  
   c. about one thousand years ago  
   d. over 5,000 years ago

2. When is National Popcorn Day?
   a. the first or second week in January  
   b. the last week in January  
   c. the third or fourth week in January  
   d. nine days after New Year’s Day

3. Draw a detailed picture in the box to the right of an ancient clay popcorn popper cooking on a fire. Use information from the article to form your illustration.

4. Explain how the Winnabago Indians cooked popcorn.
