Plant Life Scavenger Hunt Activity

#### **Materials:**

Plant life questions worksheet (pages 2-3), 18 plant life fact cards (pages 4-8), scissors and scotch tape

#### **Preparation**

Print the fact cards and cut them apart.

Make copies of the plant life questions worksheet (2-sided). Each student will need his or her own copy.

Hide all 18 plant life fact cards around your classroom where students will be able to find them.

You can put them on the back of your classroom door, on chairs, on the computer keyboard, on the sides of student desks, or wherever you like.

#### Activity

Students receive copies of the question worksheet. They have to search the classroom to find the fact cards to answer the questions.

After they have completed the question sheet, you can go over the answers together with the class.

### **Management tips**

You may want to make this a silent activity so students don't share answers with each other.

You can have the kids work by themselves or with partners.

Don't be afraid to hide the facts in tough places. Kids think it's more fun when they have to search around a little.

#### Examples of good hiding spots might include:

- sticking out of a book, like a bookmark
- the back of the classroom door
- lying flat on the bookshelf
- on the back of the teacher's chair
- on the side of your computer monitor

Have a plan for students who finish early. You may want to have an assignment for them to complete when they're done, or you may have them help other students find fact cards.

Fact Card 1:	What type of tree is the tallest tree in the world?
Fact Card 2:	What type of tree is the oldest in the world?
Fact Card 3:	What is the name of the substance that makes plants green?
Fact Card 4:	Which type of plant can grow over one meter in a single day?
Fact Card 5:	Name five things a Venus flytrap might eat.
Fact Card 6:	Do plants make food in their stems, flowers, roots or leaves?
Fact Card 7:	Name two things a plant needs roots for.
Fact Card 8:	About how many kernels are on an ear of corn?
Fact Card 9:	What is the largest type of plant in the world that does not have a wooden stem?

Fact Card 10:	Why are cactus stems usually very thick?
Fact Card 11:	In which direction do sunflowers point?
Fact Card 12:	What do flowers produce?
Fact Card 13:	What do ferns have instead of seeds?
Fact Card 14:	How many species of plants exist on Earth?
Fact Card 15:	What type of gas do animals and people need to stay alive?
Fact Card 16:	What is the largest type of seed in the world?
Fact Card 17:	How are strawberry seeds unique?
Fact Card 18:	What African tree species has roots that are 120 meters deep?

### **Plant Life**

Fact Card

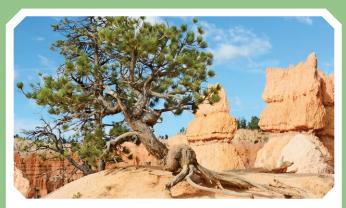

Giant Redwood trees in California are the tallest trees in the world. They can grow to be over 112 meters (370 feet) tall.

# **Plant Life**

Fact Card

Bristlecone Pine trees are the oldest trees in the world.
One Bristlecone Pine tree in California is over 4,700 years old!

Scavenger Hunt

### **Plant Life**

Fact Card

Chlorophyll is the substance in plants that makes the leaves green. Plants use chlorophyll to make food and oxygen.

Scavenger Hunt

# **Plant Life**

Fact Card

Bamboo is one of the fastest growing plants in the world. It can grow over 1 meter (about 3 feet) in a single day.

### **Plant Life**

Fact Card

A Venus flytrap is one of the only plants that can eat animals! When a fly or other small animal lands on its mouth, the Venus flytrap snaps shut and eats it! Venus flytraps can eat flies, beetles, butterflies, caterpillars, and even frogs! **Scavenger Hunt** 

## **Plant Life**

Fact Card

Plants are able to make their own food in their leaves. The type of food they make is sugar.

Scavenger Hunt

# **Plant Life**

Fact Card

A plant uses its roots to soak up vitamins and minerals. It also stores food in its roots.

Scavenger Hunt

# **Plant Life**

Fact Card

There are about 800 kernels on an ear of corn. Each kernel is a seed that can produce a new corn plant.

**Plant Life** 

Fact Card

Bananas grow on tall plants, not trees.
They are the largest plants in the world that do not have wooden stems.

Scavenger Hunt

**Plant Life** 

To Card

Cactus stems are usually very thick, because they store water inside. Cactus roots are usually very long, so they can find water over a large area.

Scavenger Hunt

**Plant Life** 

Fact Card

A sunflower will always point towards the sun. It will even move as the sun moves across the sky!

Scavenger Hunt

**Plant Life** 

Tact Card

Flowers produce seeds for a plant. Seeds usually appear in the center of a flower, when the flower's petals fall off.

**Plant Life** 

Tact Card

Some plants
(like Ferns) don't
have seeds. They
have spores on
the back of their
leaves. Spores fall
off the leaf and
make a new plant.

Scavenger Hunt

**Plant Life** 

Fact Card

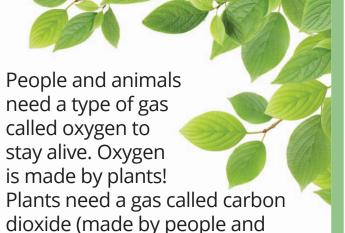

There are over 375,000 known species of plants on Earth.

**Plant Life** 

Fact Card

The coconut is the largest seed in the world.

**Plant Life** 

Fact Card

Strawberries are the only fruits with the seeds on the outside.

Scavenger Hunt

**Plant Life** 

Fact Card

Wild fig trees in South Africa have roots that are almost 120 meters (about 400 feet) deep in the ground.

Fact Card 1: What type of tree is the tallest tree in the world?

the giant redwood

Fact Card 2: What type of tree is the oldest in the world?

the bristlecone pine

**Fact Card 3:** What is the name of the substance that makes plants green?

chlorophyll

**Fact Card 4:** Which type of plant can grow over one meter in a single day?

bamboo

**Fact Card 5:** Name five things a Venus flytrap might eat.

flies, beetles, butterflies, caterpillars, and frogs

**Fact Card 6:** Do plants make food in their stems, flowers, roots or leaves?

leaves

**Fact Card 7:** Name two things a plant needs roots for.

soak up vitamins and minerals; store food

**Fact Card 8:** About how many kernels are on an ear of corn?

about 800

Fact Card 9: What is the largest type of plant in the world that does not

have a wooden stem?

banana plant

**Fact Card 10:** Why are cactus stems usually very thick?

because they store water inside

Fact Card 11: In which direction do sunflowers point?

towards the sun

**Fact Card 12:** What do flowers produce?

seeds

**Fact Card 13:** What do ferns have instead of seeds?

spores

**Fact Card 14:** How many species of plants exist on Earth?

over 375,000

**Fact Card 15:** What type of gas do animals and people need to stay alive?

oxygen

**Fact Card 16:** What is the largest type of seed in the world?

the coconut

Fact Card 17: How are strawberry seeds unique?

they are the only fruit with the seeds on the outside

**Fact Card 18:** What African tree species has roots that are 120 meters deep?

wild fig trees
