## What Is a Scientist?

Do you ever wonder why things are the way they are?  
Scientists are people whose job it is to find out!

Scientists **observe** and ask questions.

They do **experiments**.

They use **evidence**  
to draw **conclusions**.

are tests done  
by scientists to  
learn about  
something.

Evidence is something  
that shows something  
else is true or real.

Conclusions are final  
thoughts or judgements  
about something.
