Materials:
- game board (pages 2-3)
- state trivia cards (pages 4-7)
- 6-sided die
- markers (any small object)

Preparation Tips:
- Print the question cards on card stock so players cannot see through the paper.

How to Play:
Begin by setting the markers on "Start." Each player rolls the die to determine who will go first. The player with the higher number is Player 1. The player with the lower number is Player 2.

Player 1 rolls the die and moves according to the number rolled. Then Player 1 draws a question card and reads the question. If Player 1 is correct, he or she stays on the current square. If Player 1 is incorrect, he or she must go back to the square they were on at the beginning of the turn.

Then it is Player 2’s turn to roll the die and move according to the number rolled. Player 2 takes a question card and reads the question. If Player 2 is correct, he or she stays on the current square. If Player 2 is incorrect, he or she must go back to the square they were on at the beginning of the turn.

Continue taking turns until one player reaches the "Finish." The first player to land on it and correctly answer the question wins.

Remember:
A player can only cross the "Route 66" shortcut if they land on the square that says, "You found a shortcut!"

If a player lands on "Lose a turn," they skip their next turn.
