

Correct the Subtraction Facts

Look carefully at each subtraction fact below. Some are correct and some are not. If the subtraction fact is correct, draw a circle around the difference. If it is incorrect, cross out the difference and write the correct difference.

examples:

$6 - 5 = 1$	$6 - 3 = \del{8} 3$
-------------	---------------------

$7 - 2 = 4$

$6 - 3 = 3$

$18 - 8 = 9$

$0 - 4 = 4$

$17 - 10 = 10$

$15 - 7 = 0$

$15 - 9 = 6$

$2 - 1 = 1$

$10 - 1 = 9$

$20 - 10 = 10$

$5 - 4 = 1$

$14 - 6 = 8$

$16 - 9 = 8$

$4 - 2 = 2$

$17 - 8 = 9$

$9 - 2 = 6$

$12 - 7 = 6$

$3 - 3 = 0$

Correct the Subtraction Facts

Look carefully at each subtraction fact below. Some are correct and some are not. If the subtraction fact is correct, draw a circle around the difference. If it is incorrect, cross out the difference and write the correct difference.

examples:

$$6 - 5 = \textcircled{1}$$

$$6 - 3 = \cancel{8} 3$$
